Dr. Miles' Nervine Restores Health.

UNCLE EZEKIEL OGBURN, assessor and tax collector, Beverly, Mass., who has passed the 80th life mile stone, says: "Dr. Miles' Nervine has done a great deal of good. I suffered for years from sleeplessness and nervous heart trouble. Would feel weary and tired up in the morning, had no ambition and my work seemed a burden. A friend recommended Dr. Miles' Nervine, and I purchased a bottle under protest as I had tried so many remedies unsuccessfully. I thought it no use. But it gave me restful sleep, a good appetite and restored me to energetic health. It is a grand good medicine and I will gladly write anyone inquiring, full particulars of my satisfactory experience."

HISTORY AND EFFECTS OF BIMETALLISM.

(By William J. Bryan.)

1. The United States adopted bimetalism in 1792 and continued it until 1873—eighty-one years—during which time no party ever condemned bimetalism in a national convention.
Has any other financial policy been so universally commended?

2. The United States adopted the gold standard in 1873, without any national party asking to have the change made.
Has Congress ever made any other change approaching this in importance without the people demanding it through some party?

3. The gold standard was maintained in the United States from 1873 to 1890, during which time no party condemned it in a national convention.
Has the United States ever endured any other policy for so long a time without some party defending the policy?

4. The law repealing the purchasing clause of the Sherman law declared it to be the policy of the United States to continue the use of both gold and silver as standard money, and further declared that the efforts of the government should be steadily directed to the establishment of a safe system of bimetalism.
Why should the government direct its efforts toward the establishment of any kind of bimetalism if the gold standard is satisfactory to the people of the United States?

5. When, in 1890, the bolting Democrats indorsed the gold standard they polled less than 1 per cent. of the United States and carried only one precinct in the Union—a precinct in which there were only six votes—and the bolting Democrats only polled three out of the six.
Was any financial policy ever more completely repudiated?

6. The bolting Democrats, when members of the Chicago convention of 1890, joined in a minority report declaring in favor of international bimetalism.
Were the bolting Democrats bimetalists at Chicago, or did they try to practice a fraud upon the rest of the convention?

7. The Republican party had never declared the gold standard to be a blessing to the United States. In 1892 the Republicans at Minneapolis declared that the American people from tradition and interest favored bimetalism.
Have the traditions or the interests of the American people changed since 1892?

8. In 1896 the Republican party promised to promote international bimetalism and Mr. McKinley, in his letter of acceptance, pledged himself to carry out the promise.
If the gold standard has been a benefit to the United States, why should the Republican party try to abandon it and substitute the double standard by international agreement?

9. As soon as Mr. McKinley was elected he asked Congress for authority to appoint a commission to visit Europe and secure the aid of the leading commercial nations of Europe in abandoning the gold standard.
If the gold standard is a blessing why did Mr. McKinley send a commission to Europe to abandon it?

10. A Republican Congress, by an almost unanimous vote, appropriated \$100,000 to pay the expenses of the monetary commission.
If the gold standard is the standard of civilization, why did the Republican party spend \$100,000 in trying to get rid of it?

11. The French government expressed a willingness to restore bimetalism by international agreement and joined our commissioners in asking England's co-operation.
If the gold standard has been a blessing to France why is France willing to restore bimetalism?

abandon its gold standard and substitute international bimetalism?

12. Within three years the German Reichstag has adopted a resolution declaring in favor of international bimetalism.

13. The gold standard has been a blessing to Germany why was the popular branch of the German assembly willing to abandon the gold standard and substitute international bimetalism?

14. The gold standard has been indorsed by bankers, financiers and chambers of commerce, but it had never been indorsed by the producers of wealth in any nation in the world.
Will the Republican say that the producers of wealth do not know what is good for them, or should only financiers be consulted in monetary legislation?

15. The monetary commission remained in England for three months, and the press dispatches reported that the commissioners were confident of obtaining some concession from England.
On the 22d day of last September the bankers of London joined in unanimous protest against bimetalism, and the English government has now refused to make the concession for which the commissioners asked.

Does this not support our contention that the gold standard is advocated by the capitalist classes of the world?

16. The Republican party, in its platform of 1896, after pledging itself to international bimetalism, declared that the gold standard must be maintained until the leading commercial nations joined in international bimetalism.
Is it well to thus allow the leading commercial nations of Europe to dictate the financial policy of the United States?

17. It is evident that the other European nations will not join in bimetalism so long as England uses her great influence against the double standard, and it is also evident that England will not abandon the gold standard without the consent of her financiers.
Is it safe to allow the financiers of London to control the financial policy of the United States?

18. When the London bankers met on the 22d day of September and protested against bimetalism, they pledged themselves to secrecy.
Is it patriotic to allow the London bankers to meet in secret and determine the conditions that shall surround our children?

19. A gold standard increases the demand for gold, and thus increases the purchasing power of an ounce of gold throughout the world. English financiers are, to a large extent, the owners of the bonds and mortgages which the American people must pay.
Is it wise to allow these financiers to fasten the gold standard upon the United States and thus increase the burden of our bonds and mortgages by increasing the purchasing power of our dollars?

20. Bimetallists contend that the purchasing power of an ounce of gold has been increased by legislation which gives gold to a monopoly of mint privileges.
Will Republicans deny this?

21. Bimetallists contend that the gold price of silver has been lowered by legislation which closed the mints of silver and thus lessened the coinage demands for it.
Will Republicans deny this proposition?

22. Bimetallists desire to lesson the purchasing power of an ounce of gold throughout the world by making silver a competitor with gold as a standard money.
Do Republicans deny that this is desirable?

23. Bimetallists contend that the free coinage of silver will raise the gold price of silver bullion by increasing the demand for it.
Do the Republicans deny that this will be the effect of free coinage?

The Surprise of All.

Mr. James Jones, of the drug firm of Jones & Son, Cowden, Ill., in speaking of Dr. King's New Discovery, says that last winter his wife was attacked with La Grippe, and her case grew so serious that physicians at Cowden and Pana could do nothing for her. It seemed to develop into Hasty Consumption. Having Dr. King's New Discovery in store, and selling lots of it, he took a bottle home, and to the surprise of all she began to get better from first dose, and half dozen dollar bottles cured her sound and well. Dr. King's New Discovery for Consumption, Coughs and Colds is guaranteed to do this good work. Try it. Free trial bottles at Perry & Thomas' Drug Store, Successors to W. G. White.

CURES INDIGESTION.

Local Opinion in London.

Antonio Vapilotti, a restaurant keeper at London, Ky., has been indicted by the grand jury in about 180 cases for selling liquor without license. He has been tried in about 60 cases and convicted in most of them. The total amount of fines amount to \$2,135. His stock was levied on to satisfy judgment against him for violating the local option laws. Twenty-three barrels of wine and one keg of whiskey were found.—Corbin News.

The R. N. I. & B. to be Extended.

The name Louisville and Southeastern will take the place of the Richmond Nicholasville, Irvine and Beattyville railroad, commencing February 1st. Articles of incorporation have been filed all along the line. It is said to be the intention of the new company to extend the road from Irvine to the coal fields and eventually to Norton, Va., to connect with the Norfolk and Western. The road has been graded as far as Beattyville, from Irvine, and it is understood work will begin on the track at once. Philadelphia capitalists are interested in the road, having purchased it at a sacrifice from Shanahan & Sons and other holders. The road runs through a rich timber and coal country.

Story.

Mr. Theodore who will be seen in this city "Puddin'head Wilson" at an early date, bears a resemblance to President McKinley so strong as to have been the occasion of a serious embarrassment to the actor on his recent visit to Washington. While strolling along Pennsylvania Avenue, Mr. Hamilton seemed to be quite unconscious of the attention he was receiving from papers by until he stopped in front of a noted book store. He saw his own photograph displayed in close proximity to that of the President, and for the first time realized the resemblance between the two. A curious crowd had gathered around and a friendly policeman enable the actor to make an exit. "With the army of hungry office seekers loose in Washington," said Mr. Hamilton in speaking of the occurrence, "there are more pleasant things than being the double of the honored McKinley."

DR. CALDWELL'S SYRUP PEPSIN

CURES CONSTIPATION.

Why is it?

In every community there are men who would rather give their money to a stranger than to one of their own citizens, says the Glasgow Times. Just why this is so it is difficult to understand, but it is a fact nevertheless. Here is an instance in point: Last week a sick-tongued stranger came to town and in a few hours got more advertising from some of our business men than the representative of a Georgetown paper could get in a week by the most persistent solicitation. The advertisements were printed on a card, to be hung up somewhere. Some of his patrons have never advertised in a Georgetown paper, and couldn't be induced to do such a thing. The Times got three dollars for printing the cards; (it got this from a stranger, not from a citizen) the stranger got ten, fifteen or twenty dollars for two or three hours solicitation, and took the bulk of the money out of town, never to come back, and the advertiser got their names printed on a card, which people will have to hunt for if they want to find it.

NEW YORK FASHIONS.

An eccentric hat rolls abruptly up in front and bends down in back. In choosing plaid silk for a waist see that it has colors to match the hair and eyes.

Soft, pliable Henrietta cloths, trimmed with lace and velvet bands make pretty frocks for little girls.

There is a light weight velvet which makes up prettily into tea gowns as well as waists and dresses. It costs only forty or fifty cents a yard, and wears well.

A very pretty sailor hat is of silver-gray felt, with black and gray silk cords twisted round the band and tied in back, terminating in tassels. A pair of sable fan-wings rises above a gray bird's head at the left side.

Ladies who have not yet become conversant with the virtues of the E. & G. corset should have their new Spring gowns fitted over one. They will find it fulfills every requirement of a graceful, comfortable and fashionable stay.

Hats are not so lavishly trimmed as heretofore. Artistic effects are happily, once more possible in their decoration. Meshed nets, mousseline de sole, creamy laces and gauzes all retain their prestige for evening wear.

Satin charmant is an unusual variety of this material, being exceedingly pliant and quite as soft as Liberty satin, though with more actual substance.

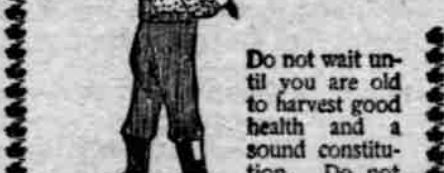

Box coats are much affected by very modish and very little dresses, from three years and upwards. Best & Co. show a dainty creation of this description in pale blue velvet with trimmings of ermine. It also appears in more serviceable materials.

Rose-colored creponette makes pretty and inexpensive home gown. A jabot of creamy lace may extend from neck to hem, placed, for novelty's sake, at the left side instead of directly in the centre of the front.

Japanese lawn is a dainty silky substance for morning gowns.

PARKERSBURG, W. Va., February 20, 1898.

The Wright Mfg. Co., Columbus, Ohio.

Gentlemen—I have been using Wrights Celery Capsules since November, 1894, and find them to be as recommended. I first began taking them while at Hot Springs, Ark., under treatment for Chronic Rheumatism, Liver and Stomach trouble. Constipation which I had been a long sufferer. I found the Celery Capsules gave me great relief from the beginning and have used them ever since. With pleasure, and unhesitatingly, I recommend them to any and all suffering with like afflictions or riches of them. Very truly yours,

Dandruff is Dangerous

When dandruff appears it is usually regarded as an annoyance. It should be regarded as a disease. Its presence indicates an unhealthy condition of the scalp, which, if neglected, leads to baldness. Dandruff should be cured at once. The most effective means for the cure is found in AYER'S HAIR VIGOR. It promotes the growth of the hair, restores it when gray or faded to its original color, and keeps the scalp clean and healthy.

"For more than eight years I was greatly troubled with dandruff, and though a young man, my hair was fast turning gray and falling out. Baldness seemed inevitable until I began to use

Ayer's Hair Vigor

The dandruff has been entirely removed and my hair is now soft, smooth, and glossy and fast regrowing. I can truly say that I am indebted to Dr. J. C. Ayer, Lowell, Mass., for my hair.
